WESAM AWAD

Web Developer | Front-End Developer

+970597151826 | wesam.awad999@gmail.com | Palestine , Gaza
LinkedIn: https://www.linkedin.com/in/wesamawad

Summary

Results-driven Web Developer with hands-on experience in designing, developing, and maintaining responsive, high-performance web applications for clients across multiple industries. Skilled in building modern user interfaces using HTML5, CSS3, JavaScript, TypeScript, React.js, Redux, Bootstrap, and Tailwind CSS, with a strong understanding of responsive design, cross-browser compatibility, and scalable front-end architecture. Experienced in collaborating directly with clients to analyze business requirements, deliver customized web solutions, and successfully manage multiple projects while maintaining high levels of quality and customer satisfaction. Knowledgeable in Search Engine Optimization (SEO) best practices, semantic HTML, website performance optimization, and accessibility standards to improve user experience and search engine visibility. Passionate about writing clean, maintainable code, continuously learning emerging technologies, and delivering innovative digital solutions that support business growth.

Education

Bachelor's in Information Technology

- University of Palestine | 2018 – 2022

Professional Experience

Freelance Web Developer | January 2020 – Present

- Develop responsive, user-friendly web applications using HTML5, CSS3, JavaScript, TypeScript, React.js, Redux, Bootstrap, and Tailwind CSS to deliver high-quality digital solutions.
- Collaborate with clients to gather project requirements, analyze business needs, and translate concepts into functional, visually appealing websites and web applications.
- Design and implement reusable, maintainable, and scalable front-end components while following modern development standards and coding best practices.
- Optimize website performance, responsiveness, accessibility, and cross-browser compatibility to ensure a seamless user experience across desktop and mobile devices.
- Apply Search Engine Optimization (SEO) best practices, including semantic HTML, structured page layouts, metadata optimization, and performance enhancements to improve search engine visibility.
- Integrate RESTful APIs and work closely with back-end developers to ensure smooth data communication and application functionality.
- Troubleshoot, debug, and resolve technical issues while continuously improving application performance and code quality.
- Manage multiple client projects simultaneously, consistently meeting deadlines, maintaining effective communication, and achieving high levels of client satisfaction.
- Participate in collaborative development environments using version control systems and coordinate with cross-functional teams to deliver successful web solutions.
- Develop and maintain projects including Sensorial Life Website (Jordan), Vecto Website (Palestine), and Alkanz Academy Online Educational Platform, ensuring functionality, usability, and long-term maintainability.

Personal Skills

- Problem Solving Mindset
- Strong Communication Skills
- Team Collaboration Excellence
- Time Management Skills
- Adaptability Under Pressure
- Continuous Learning Attitude

Career Skills

- **Front-End Web Development:** Building responsive, interactive, and high-performance web applications using modern front-end technologies and industry best practices.
- **React.js Development:** Developing scalable single-page applications with React.js, reusable components, Redux state management, and efficient UI architecture.
- **Responsive Web Design:** Creating mobile-friendly, cross-browser compatible interfaces using HTML5, CSS3, Bootstrap, and Tailwind CSS for optimal user experiences.
- **JavaScript & TypeScript:** Writing clean, maintainable, and efficient JavaScript and TypeScript code to deliver dynamic, reliable, and scalable web solutions.
- **Search Engine Optimization (SEO):** Implementing on-page SEO techniques, semantic HTML, performance optimization, and accessibility standards to improve search engine visibility.
- **Client & Project Management:** Collaborating with clients to gather requirements, manage multiple web development projects, deliver solutions on schedule, and ensure customer satisfaction.

Software Skills

- HTML5
- CSS3
- JavaScript
- TypeScript
- React.js
- Redux
- Bootstrap
- Tailwind CSS
- SEO

Developer Tools & Workflow

- Version Control: Git & GitHub
- Package Managers: npm & Node.js
- Build Tools: Vite
- Code Editors: Cursor & Visual Studio Code (VS Code)
- Design to Code: Figma
- Debugging & Testing: Chrome DevTools

Training & Courses

- Advanced JavaScript Course – Udemy (Jonas Schmedtmann)
- React.js Course – Almadrasah Platform
- Introduction to Artificial Intelligence (AI)

Languages

- **Arabic**: Native Language
- **English**: Intermediate (Speaking, Reading, Writing)
